PEAK JORDAN

Brand identity extraction · based on supplied Instagram screenshots

1. Logo

The profile mark is a bold, rounded lowercase-style “P”/capital P monogram in pink, centered inside a white circular field. A separate wordmark reads “peak” in a rounded geometric sans-serif style. The PNG supplied alongside this PDF is an extraction of the pink monogram from the screenshot, not a verified original vector file.

2. Color palette

Color	HEX	Role
	#F078A2	Peak Pink — Primary brand accent
	#111417	Near Black — Social / dark backgrounds
	#FFFFFF	White — Logo field and contrast
	#F4A5BF	Soft Pink — Campaign backgrounds
	#A7A0A2	Warm Gray — Supporting neutral

3. Typography

The wordmark appears to use a rounded, friendly geometric sans-serif with soft terminals. The exact font cannot be confirmed from screenshots alone. For a close web/design direction, test a rounded sans-serif such as Nunito or a similar geometric family; treat this as a recommendation, not a confirmed brand font.

4. Visual direction

• Playful, youthful, friendly and social-first
• High contrast: pink against near-black, white or soft pink
• Rounded typography and simple, bold compositions
• Campaign graphics use a large pink field, minimal illustration and casual handwritten-style headline lettering
• Staff apparel uses pink lettering and informal hand-drawn accents

5. What is confirmed vs. estimated

Visible in the supplied screenshots: pink P monogram, white circular avatar, “peak” wordmark, dark storefront signage, pink campaign backgrounds, informal handwritten graphic lettering.
Estimated: HEX values are approximate samples from compressed screenshots; font names are not confirmed. The attached PNG is a raster extraction, not an official SVG/AI source. For production printing or trademark use, request the original brand assets from PEAK.

Source: screenshots supplied by the user from @peak.joo. This document is an observational extraction, not an official brand guideline.
